

FTEEN.

Fakultas Telematika Energi

Berkompetensi pada konsentrasi Sistem Informasi, Rekayasa Perangkat Lunak, Jaringan, Komputer Jaringan Cerdas, Data Scientist, Software Engineer, Social Media Engineer, Digital Marketing dan Business Intelligent.

Program Studi.

- S1** Teknik Informatika
- S1** Sistem Informasi

Prospek kerja.

Data Model Administrator, Data Architect, Database Administrator, Data Scientist, Data Quality Engineer, Business Analyst, Web Programmer, Mobile Programmer, Software Engineer, Network Administrator, System Analyst, IoT System Developer, IT Consultant, Social Media Engineer, Medical Record Information Expert, Digital Marketing, Research and Development (RnD), Technopreneur, Business Intelligence, Information Security Analyst, Market Researcher, Product Manager, Scrum Master.

Laboratorium.

Lab Intelligent Computing
Lab Software Engineering
Lab Multimedia
Lab Software Architecture & Quality
Lab Information Retrieval
Lab Embedded System
Lab Computer network
Lab Information Technology Certification Center
Lab Language Development Center
Lab Virtual Reality

Kenapa harus memilih fakultas ini?

Perkembangan Teknologi Informasi yang sangat pesat membuka peluang karir lulusan Teknik Informatika dan Sistem Informasi lebih lebar. Kebutuhan terhadap keahlian di bidang ini sangat besar, terutama bagi mereka yang menyukai dunia startup teknologi, keamanan informasi, Pemrograman, IoT, jaringan bahkan di bidang energi ketenagalistrikan.
